Hydrofluorocarbons (HFCs) are potent greenhouse gases (GHGs). The American Innovation and Manufacturing (AIM) Act authorizes EPA to address HFCs by: phasing down their production and consumption, maximizing reclamation and minimizing releases from equipment, and facilitating the transition to next-generation technologies through sector-based restrictions on HFCs. This website provides information on HFCs and the AIM Act.

What's New

- [EPA publishes Variable Refrigerant Flow Air Conditioning Final Rule \(12/12/2024\).](#)
- [EPA publishes Final Emissions Reduction and Reclamation Rule \(10/11/2024\).](#)
- [Frequent Questions on the Phasedown of HFCs \(updated 10/11/2024\).](#)
- [EPA issues calendar year 2025 HFC allowances \(10/1/2024\).](#)

- [EPA finalizes new set of administrative consequences \(9/30/2024\)](#).
- [EPA releases 2023 HFC data in HFC Data Hub \(9/30/2024\)](#).

HFC Allowance Allocation and Reporting

Learn about production and import restrictions, the allocation of allowances, and reporting requirements.

[See Allowance Allocations](#)

Technology Transitions

Learn about EPA's work facilitating the transition to climate friendly alternatives and the petition process under subsection (i) of the AIM Act.

[See Technology Transitions](#)

Managing HFC Use and Reuse

Learn about how EPA is managing the use and reuse of HFCs and substitutes under subsection (h) of the AIM Act.

[See Managing Use & Reuse](#)

HFC Data Hub

Explore HFC Data, including calculated consumption and production and allowances expended.

Notices and Rulemakings

Access a list of Notices and Rulemakings under all programmatic areas of the AIM Act.

Public Meetings and Other Resources

Register for upcoming public meetings, access content from past meetings, and learn more about the Kigali Amendment,

enforcement, and
Inflation Reduction Act
Provisions related to the
AIM Act.
